# FINANCIAL SOLUTIONS

---

**Levantine & Co** is a financial services firm with a business strategy that utilizes a sustainable framework built on the widely-used International Finance Corporation (IFC) Performance Standards. We find innovative financial solutions to obstacles that address the vital topic of sustainability.

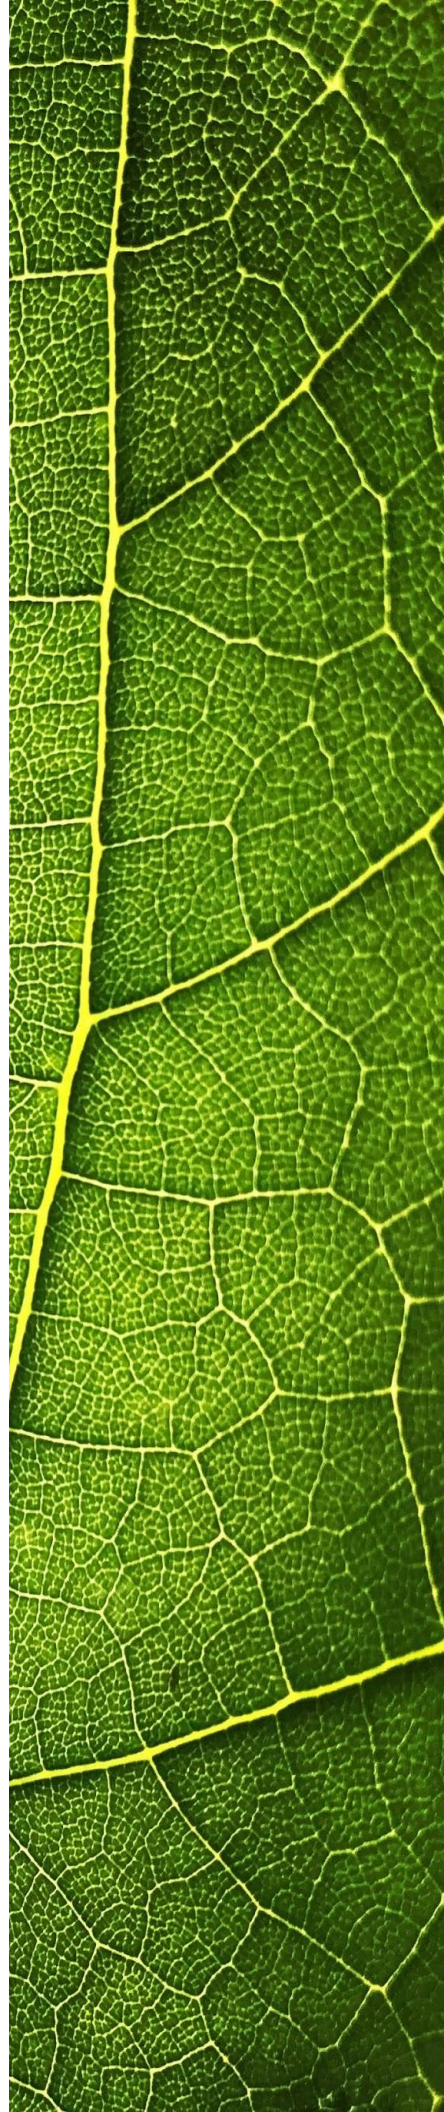

The firm leverages our extensive knowledge, our access to capital, our network of key relationships, and a unique advisory approach to unlock our client's full potential.

## SERVICES

- Confidential, unconflicted, and strategic advice to assist our clients towards fully understanding their sustainability needs
- We partner with companies seeking project or growth finance. The firm is experienced in raising both debt and equity capital
- Cross-border expansion and acquisition opportunities, managing the project from preparation to closing

## GEOGRAPHY

We operate across Europe, the Middle East and Africa. We are based out of our Head office in Cape Town (South Africa) and our secondary office in Istanbul (Turkey).

# OUR EXPERTISE

---

Levantine & Co addresses the sustainability goals of companies by creating Financial Solutions to incorporate sustainable technologies into their processes. We assist our clients to financially benefit from utilizing their existing sustainable strengths. Ultimately reaching their sustainability targets in the most efficient ways possible.

We assist providers of Sustainable Technologies to create innovative, commercially viable solutions to further implement their technologies into their existing and future clientele.

---

## CORE FOCUS

The firm operates across a number of industries. Due to current levels of unsustainability, our primary focus is on the Food Processing and Textile Industries. We specialize in finding financial solutions through:

- Renewable Energy
- Sustainable Manufacturing
- Water Efficiency
